CAHF Welcomes Darmiyan as Preferred Provider for Cognitive Health Solutions

SACRAMENTO – The California Association of Health Facilities (CAHF) has named Darmiyan, Inc. its newest Preferred Provider**,** expanding member access to advanced tools that support early brain health assessment and dementia prevention.

Through this partnership, CAHF's more than 1,300 skilled nursing and intermediate care facilities for the developmentally disabled will be able to utilize BrainSee™, Darmiyan's U.S. Food and Drug Administration approved, AI-powered platform that helps identify residents at risk for cognitive decline. The technology offers a non-invasive way to predict early signs of Alzheimer's disease, supporting timely care planning and improved resident outcomes.

"Maintaining brain health is an essential part of overall well-being for the residents our members serve," said CAHF CEO/President Cassie Dunham**.** "Darmiyan offers an innovative approach that provides facilities with meaningful, evidence-based insights that enhance both quality of life and quality of care."

The collaboration also includes access to BrainSee lifestyle that supports daily cognitive and lifestyle management. It is a comprehensive solution that provides facilities with practical, scalable solutions to help residents stay healthier, more independent, and engaged longer.

"CAHF is a trusted leader in long-term care, and we're proud to collaborate with an association that shares our commitment to proactive, person-centered care," said Dr. Padideh Kamali-Zare, CEO and Founder of Darmiyan. "Together, we can help facilities use data and technology to make earlier, more informed decisions about brain health."

Founded in 1950, the California Association of Health Facilities (CAHF) is a non-profit trade organization representing skilled nursing facilities and intermediate care facilities for individuals with intellectual disabilities. CAHF is dedicated to providing quality care for the frail, elderly, intellectually disabled, and those with chronic mental illness. Visit CAHF for more information.

Founded in 2016 and headquartered in San Francisco, Darmiyan is revolutionizing brain health through its proprietary AI-driven platforms BrainSee™. With FDA approval and superior clinical accuracy, Darmiyan enables healthcare providers to detect and predict cognitive decline early, guide preventive care, and improve patient outcomes. Visit Darmiyan and BrainSee for more information.
